Operator Training Workshops

DP MoveSafe® - Train-the-Operator

Crown's nationwide network of factory-trained instructors offer full-service training programs. Conducted at your site, these highly trained instructor led sessions present the full gamut of powered industrial truck safety information with clear, understandable and highly visual video and animated presentations. Hands-on time is maximized and structured to assure your operators are trained not only in truck operation and task performance, but in safe operating habits and practices as well. These are crucial in the effective training of your operators.

Contact your local Crown lift truck dealer for available dates and pricing.

DP LeadSafe® - Train-the-Supervisor

Supervisors of lift truck operators play a critical role in reinforcing the safe operating skills and habits taught during operator training sessions. To help them do this, Crown offers the award winning* LeadSafe Program in a Demonstrated Performance format to help them learn and demonstrate how to effectively supervise lift truck operators and reinforce safe operating habits.

The workshop covers topics such as: Identifying Proper and Improper Operation, Recognizing Potential Hazards, Giving Feedback to Operators, Pedestrian Supervision, OSHA 29CFR 1910.178 Requirements, and Safety Metrics.

Contact your local Crown lift truck dealer for available dates and pricing.

*2008 International Society for Performance Improvement Award of Excellence

DP TrainSafe® - Train-the-Trainer

DP TrainSafe uses Crown's award winning, hands-on, Demonstrated Performance approach to deliver the best and most comprehensive operator train-the-trainer program in the industry. Participants in the two day TrainSafe program will learn and practice implementing Crown's MoveSafe operator training programs, 11 step hands-on training and safe skill and habit development process. Trainers will leave with the skills needed to conduct these workshops, as well as three year re-evaluations, safety refreshers (workshops), warehouse inspections, and much more.

In addition, participants in the 3-day TrainSafe class or the 1-day LeadSafe train-the-trainer class will learn to train supervisors utilizing Crown's DPLeadSafe supervisor training program.

DP TrainSafe is offered at most Crown dealers and the following Crown regional training centers:

Atlanta, Ga. (phone 770-381-4999; fax 770-381-0576)
Boston, Mass. (phone 781-933-3366; fax 781-933-8155)
City of Industry, Calif. (phone 626-968-0556; fax 626-961-0135)
Dallas, Texas (phone 817-419-4000; fax 817-375-6525)
Dayton, Ohio (phone 937-454-7545; fax 937-898-9452)
Joliet, Illinois (phone 815-773-0022; fax 815-773-0033)

Contact your local Crown lift truck dealer for available dates and pricing.

Available Operator Training Materials listed on page 11.03

Crown offers the most comprehensive line of training tools to help maximize your resources for more effective Operator

Training. All lift truck programs come ready with both DVD video and materials in both English and Spanish. These are the same programs that form the foundation of Crown's entire line of operator training services and include Crown's 11 step hands-on training process.

Note: Downloadable media available. Contact the Education Center at Crown Equipment Corporation for information and pricing (419-629-2311).

Service Training Workshops

DP Service Training - For your Lift Truck Technicians

Our award winning* Demonstrated Performance service training workshops give your technicians the Crown-specific skills and knowledge they need to keep your Crown fleet up and running. Since many technicians are hands-on learners, they're more likely to retain information learned through first-hand experience than material presented in a lecture. Crown's Demonstrated Performance Service Technician Training goes above and beyond traditional classroom training, allowing participants to work on trucks with instructor supervision. Technicians can move at their own pace and focus on the particular tasks and skill groups that best serve their organization's needs.

Learn It. Do It. Use It.

This defines the philosophy behind Crown DP training. Participants "Learn it" by reading the module, reviewing any reference material, and practicing the required skills. Then they "Do it" by performing what we call a "skill check" for the instructor to demonstrate their ability to perform the skill. This prepares them to bring their newly acquired skills back to their job and "Use it" to improve the uptime and reliability of Crown lift trucks.

Demonstrated Performance workshops are completely customizable to the needs of your

technician. They'll only spend time on what they need to learn, and only work on the trucks that apply to them. For example, they won't spend two hours learning about basic electricity if they already know it. Before the DP training course spend some time talking to your technician about what you want them to cover during the session. Do you want them to focus on mechanical topics, such as repairing or replacing components? Or do you want them to learn how to troubleshoot the electrical system? Contact one of the following Regional Training Centers and the Regional Service Trainer to have a customized training course map developed to match your need.

DP Service Training is offered at the following Regional Training Centers:

Atlanta, Ga. (phone 770-381-4999; fax 770-381-0576)
Boston, Mass. (phone 781-933-3366; fax 781-933-8155)
City of Industry, Calif. (phone 626-968-0556; fax 626-961-0135)
Dallas, Texas (phone 817-419-4000; fax 817-375-6525)
Dayton, Ohio (phone 937-454-7545; fax 937-898-9452)
Joliet, Illinois (phone 815-773-0022; fax 815-773-0033)
Kansas City, Kan. (phone 913-888-9777; fax 913-888-9778

*2006 International Society for Performance Improvement Award of Excellence

The programs listed below cover fundamental principles and systems that can apply to many truck models.

For Crown DP Service Training contact one of Crown's Regional DP Service Training locations listed on the previous page.
