

OPERATOR MANAGEMENT

InfoLink® lets you monitor and manage the operator factors that have the greatest impact on your bottom line.

Compliance

- Manage equipment access, operator certification
- Streamline pre-shift inspections
- Document the process with digital records

Impacts

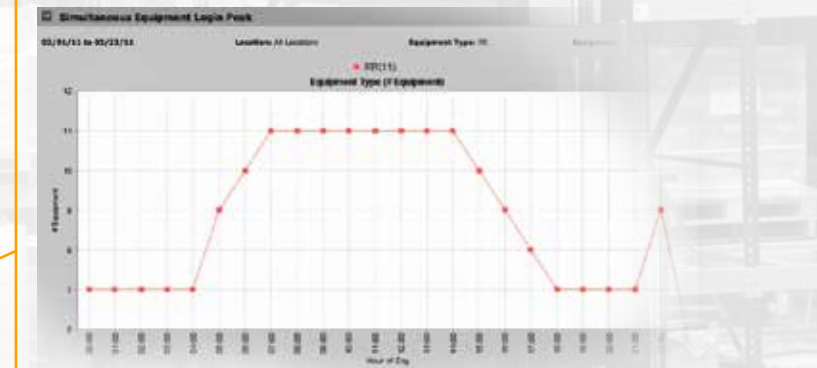

- Receive incident alerts and impact details
- Identify problem spots to reduce damage
- Promote safe truck operation

Productivity

- Record and compare truck activity by operator
- Analyze productivity across facilities, departments, shifts
- Ensure optimal use of equipment for the task

FLEET MANAGEMENT

With InfoLink®, tracking and managing essential fleet factors is a simple, seamless process.

Utilization

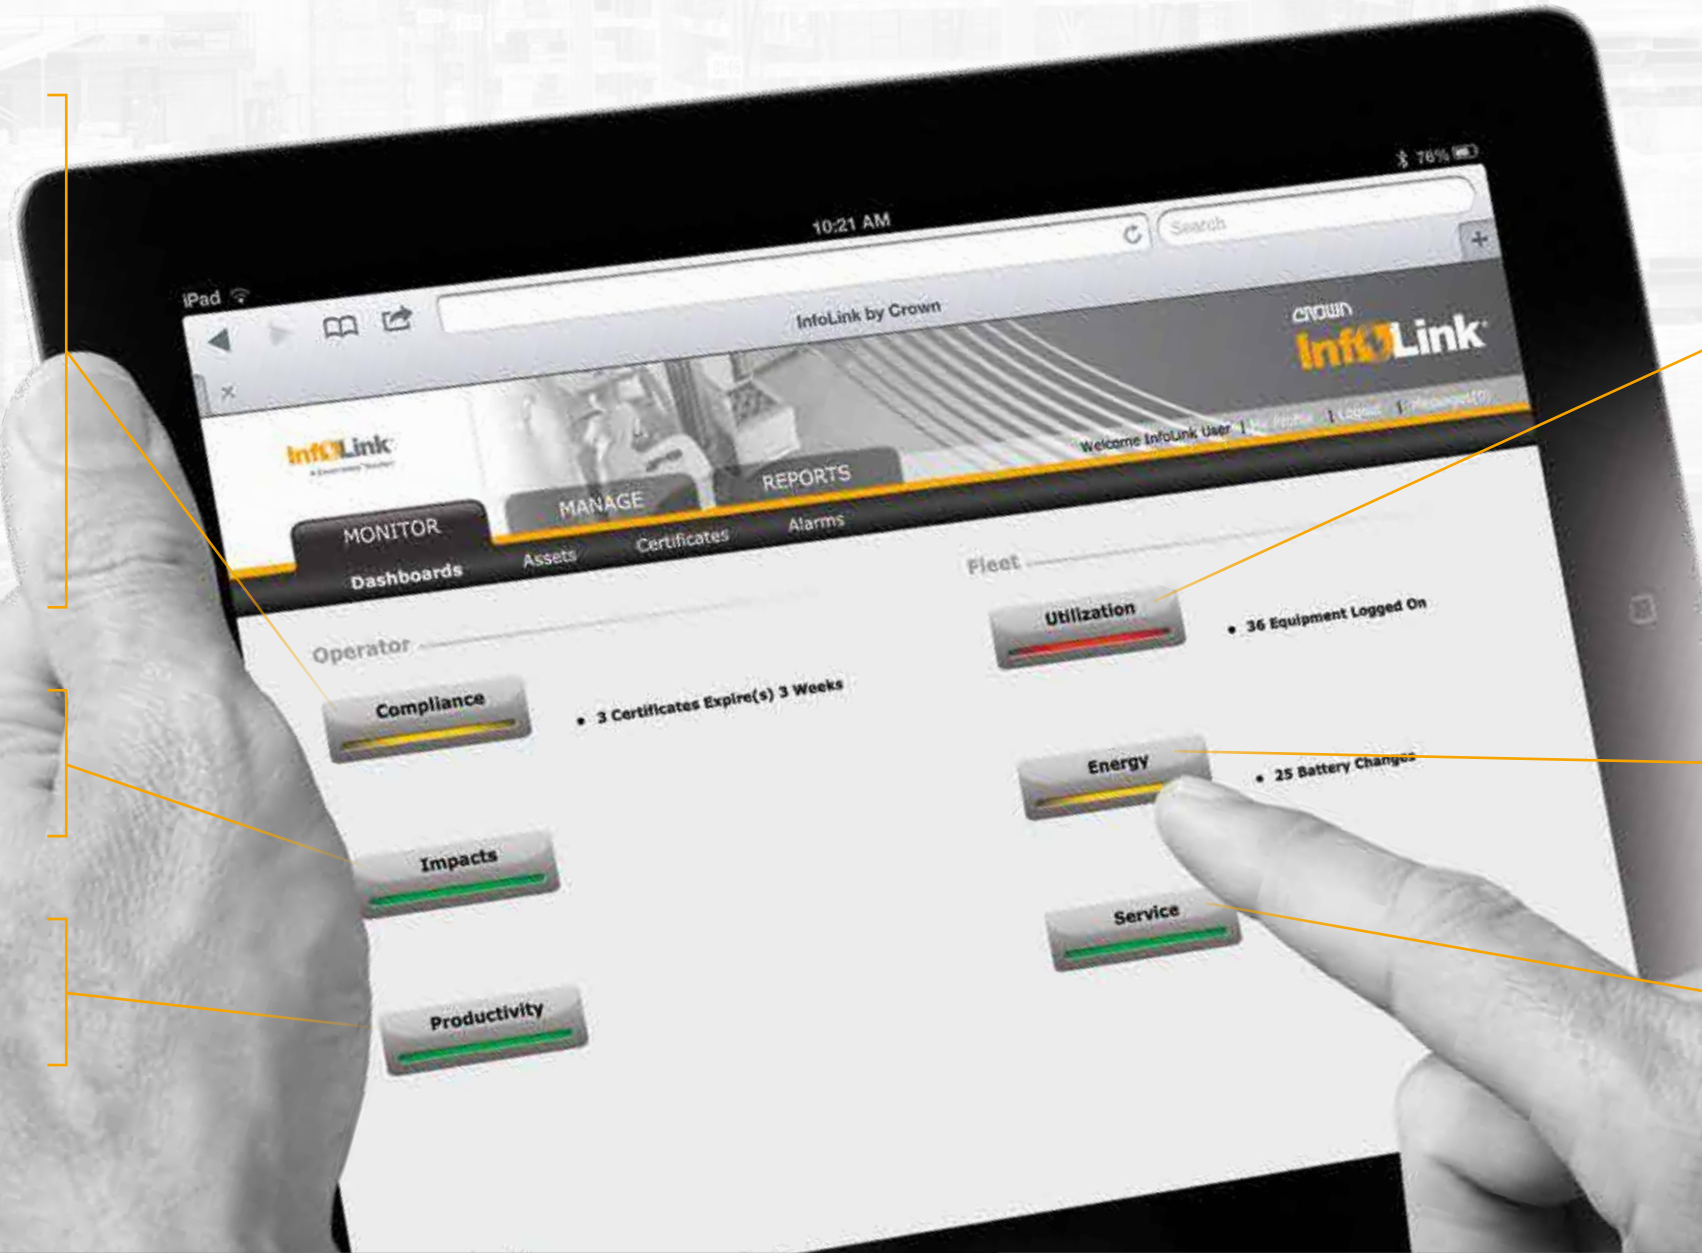

- Track equipment status
- Optimize fleet size and equipment allocation
- Identify long-term and seasonal needs

Energy

- Optimize battery/tank changes
- Improve battery life and performance
- Calculate fuel expense

Service

- Schedule service to minimize downtime
- Streamline repairs
- Inform life cycle decisions

POWERFUL TOOLS FOR CONFIDENT DECISIONS.

Precise data and pure processing power are only part of the story. What really matters is translating information into insights you can use to make effective business decisions. InfoLink makes this simple, with immediate views of key performance factors (status at-a-glance). Now, keeping your entire fleet performing at peak—and promoting operator safety and productivity—is easier than ever.

Opportunity Indicators.

Review key performance factors at a glance, and immediately identify key action items

Interactive Dashboards.

Explore and analyze issues quickly, and set benchmarks using visually appealing charts and graphs

Detailed Reports.

Generate fully detailed, customized reports automatically or whenever the need arises

INFOLINK RESULTS: OWENS & MINOR

To cut costs and improve efficiency, healthcare supply chain and distribution company Owens & Minor looked into fleet and operator management solutions. Within four months of implementing InfoLink in a single distribution center, the company was able to eliminate 12 percent of its lift truck fleet, improve safety policy compliance, and better manage impacts.

12% FLEET REDUCTION

"It comes down to the simple fact that you need to have the right information to make the right decisions. We have 52 sites in our network, and we are eager to link them together to see what other opportunities for cost-cutting and efficiency improvements InfoLink can help us uncover."

— Leo Biller, Manager of Corporate Operations
